Changes to CMS

We have made the following enhancements to the Case Management System:

SPELL-CHECK

The spell-check function of the FSSP will no longer give you the *SWITCH TO* error message if you happen to click outside the box.

BROKER DOWN Notification

If you are attempting to sign in to CMS when the broker is down, or if you are working in CMS when the broker goes down, you will be returned to a screen which reads: *You are now disconnected from HSS DPA Case Management System.*
